MEMORANDUM FOR THE RECORD

SUBJECT: IBM Deposition Involving CIA Related Contract

1. Joseph Widmar of the Department of Justice advised that IBM is taking depositions from Auerbach Associates of Chicago in connection with antitrust cases in which they are involved. In the course of these depositions, IBM has requested information from certain contract studies of computer acquisitions by Government agencies including CIA. The contract referred to by Justice is No. EC-3395(62-7230)71R. The title is Information Processing Study. The Justice Department will make its own determination as to whether any proprietary information or trade secrets are involved, but their other concern is whether or not the content of the study, insofar as it involves CIA, is classified or otherwise sensitive from a national security point of view.
